

To commemorate the 60th Anniversary of the Korean War the Victoria College/University of Houston – Victoria Library is sponsoring a conference to be held at the Victoria College, Victoria, Texas on June 24 – 26, 2010.

One of the first, and very important, steps in preparing for the conference is contacting individuals, organizations and museums who have ties to the Korean War to make them aware of the conference and ask their help in promoting the conference thru their websites, blogs, mailing lists, newsletters, etc.

If your group or organization has a venue where you could post information about the upcoming conference, we would really appreciate your assistance. The success of the conference depends on making sure that Korean War veterans all over the United States are aware of the conference and have an opportunity to participate.

We will be sending out additional information, such as publicity releases, posters and brochures as they become available. Please contact Brenda Lincke Fisseler at the following email address: bf2010korea@yahoo.com if your organization or group is interested in receiving additional information.

Also, we are putting out a call for conference papers to anyone who would like to be considered as a presenter. Presentations on all aspects of the conflict will be considered. Proposals must include a brief biography, a one paragraph abstract and the name, address and e-mail address of the presenter. Submissions should be sent to James M. Smallwood at jms8466@okstate.edu or by mail to 1413 S. Lindsay St. Gainesville, Texas 76240-5625 by January 15, 2010.

If your group or organization would like to participate by sponsoring an exhibit at the conference, we would be very interested in discussing that idea with you in more detail. We are also seeking assistance in locating groups and/or individuals who would be interested in financially sponsoring a session during the conference.

Thank you for your time and assistance in this matter, and we look forward to working with you in the future. Updated information on the conference can be found at <http://vcuhvlibrary.uhv.edu/whatsnew/korea/>.
